Subject: Public Safety Committee Agenda

Cecil and Gary,

I wanted to contact you to alert you to an issue with the documents posted on the City Website for tomorrow's Public Safety Committee meeting - I didn't see another member of staff listed on the City Website so I wanted to reach out to both of you.

The document for **Staff Memo: Crime Open Data Accessibility** does not load - and I'm particularly interested in that report since I've advocated for improvements to that Open Data feed for months.

I will be at the meeting tomorrow, but I would greatly appreciate the opportunity to review the staff memo ahead of time.

Thank you,
Patrick Conant
