Subject: Resilience & Food Policy event evaluation & materials

---

Hello fine people,
Thanks again for carving out some of your precious time to think and learn together yesterday.Â Special appreciations to Laura, Ameena, Sarah, Nicole and the WWC students for their time and efforts in shaping the day.

We scratched the surface and threw out a lot of problems, questions, and ideas as we wade into this deep water with integrity and respect.
I look forward to continuing the conversation and developing next steps together.

HERE is a link to a **short** event eval (including an optional second section asking for your policy barrier/advocacy issue areas).
HERE is a link to a shared folder with resource & presentation materials from Laura and Ameena and Nicole's policy overview presentation.
HERE is a full contact list of event attendees including email and organization, I've also included columns to capture the whole measures/resilience areas, please take a moment to check the area(s) where your work is most focused. As promised, this is a CC'd list, use it wisely!

I'll share the Resilience and afternoon discussion graphics once they're finalized.

keep up the good work,
Kiera
