Dear Commission Chair Brownie Newman,

To make Asheville a more livable and sustainable city, I urge you to vote against cascading Section A of the I-26 Connector Project.

I stand with the City of Asheville in supporting robust bike/pedestrian facilities and a reduction in travel lanes along Patton Ave. in the I-26 Connector Project. I believe the Patton Avenue/Bowen Bridge corridor should be a multi-modal, urban boulevard that can serve as a gateway to downtown; however, NCDOT still hasn't committed to these outcomes.

Until negotiations between the City of Asheville and NCDOT on remaining design questions are completed and incorporated into the final Environmental Impact Statement, the project should not move forward. Thank you for your consideration.

Sincerely,
Kim Roney
