Hi all,

I had a chance to chat with Eric Miller today. He's been active in the TMP work, and been following our goings-on, despite being unable, because of his work schedule, to make it to the meetings. So, kuddos to Eric!

As an update, Eric let me know that [redacted]

I think we had discussed that we can't really move the meetings from Tuesdays (now the third Tuesday of the month). We like it where it is also because it's now the day before MMTC meetings. It also works well having it later in the month so we're able to get more up-to-date ridership and operating data (ie. the full previous month's data instead of data only through the month prior) by our meetings.

Kim, you had talked about putting out a doodle poll regarding potential other times to have these meetings. We'll all keep an eye out for that poll.

Let's please be sure to include times where meetings either start at 5pm, or that extend substantially past 5pm, please, amongst other options.

The end result of this poll may be that we decide to keep the meetings scheduled as they currently are. That said, we had discussed that this is an appropriate time to reevaluate our monthly meeting times, and if we end up moving the meeting times and can do so in a way that works for everyone's schedule AND Eric's, then it would be great to have him as part of the meetings, of course.

Thanks all!
