Subject: Re: Ideas for realistic options until new buses arrive

---

Kim,

Thanks for the information. We have multiple meetings this week with both ART staff and RATP Dev corporate staff, and will discuss this information with them there. I share your frustration with the maintenance issues and the poor communication about them.

Also, I did not include Vaidila on this email because he has moved back to the Planning Dept. Thanks.

Elias Mathes

> 2. I'd like to request a report on how many service hours we have not paid for due to maintenance issues? I took pictures of the 1434 getting towed today, and the driver says the pins in the steering column are the issue not allowing the bus to turn. He says another route will have to be pulled today, while the E1-1/2, S2, and S6 are also out of service today.
