Subject: Clincal services & Haywood Rd Form-Based Code

Cathy,

I've been revisiting the adapted Haywood Rd Form-Based Code (7-8-28) in regards to clinical services. From page 46, the land use shows that clinical services are permitted.

The reason I'm asking: The Steady Collective received a zoning violation because shelters are not permitted in the code. Their County-funded harm reduction services are offered at a table in a bookstore for 2.5 hours, once a week. It makes most sense to me that the services would fit under the terminology for clinical services, not shelter.

If this can be found as a reasonable offering, I hope that we might send word to Shannon Tuch's office, and that the violation could be withdrawn.

Please let me know what the next steps are from your perspective. Thank you for your consideration,
Kim
