The 2.2-mile RADTIP (River Arts District Transportation Improvement Project) serves as the spine of the city's multi-modal transportation network. Join us to learn more about it's planning and construction, as well as how it is being leveraged for a wide range of community goals from stormwater management and water quality improvements to affordable housing and community development, as well as private investment.

The tour will last approximately 1.5 hours and include several stops to discuss and explore specific project locations. Additional topics will include community and local neighborhood connections; brownfield redevelopment; historic preservation; and public-private partnerships. The tour will be led by City of Asheville's Stephanie MonsonDahl, Strategic Development Director, and Dustin Clemens, Capital Project Program Manager - Innovation Districts.

We will apply for 1.5CM/PDH credits.
