---

Just to give you an update on what happened, Mr. Jay Highcorn came to the site yesterday and told the contractor that they needed an after hours permit. The contractor went ahead and applied. Mr Highcorn told the contractor that if the city received more than 3 complaints about lighting or noise we could no longer work after hours. Is that true? That is not how I read the noise or lighting ordinance. Can I ask you to please help and make sure the contractor gets his permit tomorrow?  
It was good as always seeing you this morning.
