It was debated at the meeting before last after you left. It was not a slam dunk. Julie Mayfield wanted it and the Mayor did not.

Hello all,

Would someone kindly send around the final resolution as well as the attached list of appointees? Thanks!

I gather that they will be considered by both City Council and the County Commissioners on March 22nd. Correct?

I agree with Julie's recommendation to keep Dave Hollister.

In order to keep the group size at the limit we agreed to, I think we need to limit the local government representation to just Asheville and Buncombe County.

I would support Dave Hollister being part of the task force, but someone would need to come off the list for that to happen. Dave was on early lists but somehow came off between our last two meetings.

And to be clear, I think we said the list of people would not be incorporated INTO the resolution but be attached to it.

Brownie,

There are a couple holes that still need to be filled. They are highlighted below.

I met with Chancellor Grant last week and she has asked me to send her a note with the type of person that weâ€™re looking for from UNCA and she will ask someone from the university to serve and help the effort. As a group, we also need to decide on one additional team member, and, if selected for the Task Force, decide who should come off the list to keep the group at 15 or below.

Dave Hollister (Sundance power) has indicated a strong interest in serving on the group and he certainly brings technical expertise and a career of working on energy issues to the table. Whatâ€™s the pleasure of the group?

A couple other questions that I would ask:

Â· If we have a â€œcounty municipal leaderâ€, should we open the invitation up to the other municipal leader before selected their representative?

Â· Brownie, is there anything we need to do to have the commissioners appoint you before we send around, or has that already been addressed?

I think the updated list is below:

Group Represented

Could someone please circulate an updated list of the people that will be appointed to serve on the task force? As we discussed, that list of people needs to be incorporated into the resolution, correct?
