Subject: RE: County request for Water Line Easement across Walton Street Park

At this time we are going to proceed with installing a well. I need to tell you that the fence on the east side of the park will need to be moved because of encroachment on the property that is owned by the county. There is an orange flag that is on the fence that shows the location of the property corner. Thanks for your help but I have to say that I am disappointed that an easement couldn't be worked out for us to bring public water to the property. Jon

Subject: County request for Water Line Easement across Walton Street Park

Jon,

We have reviewed the County's request for a waterline easement and would recommend an alternative that would include talking to adjacent vacant property owners to see if there was interest in running a public water line down Oakland Street.

We would be happy to assist in this evaluation if the County wishes to pursue this option.

Please let me know if you have any questions.

Cathy
