> Hi, I am not sure who I am supposed to contact regarding a street light that has been flickering/flashing for many months at night. It is on Craven St in West Asheville in front of the huge brewery that is being built. It is the first street light after the intersection with Hazel Mill Rd. It's tough to drive on that street at night due to the intense flashing. I am contacting you on behalf of my parents who live in West Asheville. Thank you.
