Hi,

I'm talking with UNCA about having the screening there. I will know more in a few days and I'll let you know when we meet next week.

Thanks for checking and checking in. See you next week!

I know our director would like to first see the film prior to opening it to the public, but we also have a very small space to present films, maybe a max of 30 guests in one room. Let me check with him first before going any further, Diana. A good description of the film will help!

Thanks - Keith

Hi Keith,

How are you?

Thank you so much for hooking me up with Bryan. He's super helpful and I'm looking forward to meeting you both on the 23rd.

Quick question, would you be interested in having the film shown at the center in December? I'm asking because I'm not getting the response I had hoped for with the local theaters, and maybe it should be where Pisgah and Mitchell are?! Just a thought.....

Thanks again, Keith.

Have a great weekend.

Diana
