Beautiful photo of P22 â€” amazing contrast between sick/well. Thanks Diana! Glad to know you are doing what you do! THANK YOU!
Keith

Hello again,

I apologize if I did not send these before butâ€¦ introducing P-22.

poisoned

healthy again after treatment

As Iâ€™m sure I mentioned, I am the former Managing Director of the Animal Rights Foundation of Florida, the largest animal advocacy organization in Florida, and the former Development Director for Save the Chimps, the largest primate sanctuary in the world. I have produced humane education campaigns targeting adults and children on a wide variety of issues for thirty years. The only difference here is that I am working from starting a new organization and the audience is a work in progress, as we discussed today.

My intention for including the Nature Center is to hopefully bring the center attention and new visitors.

Thanks again for meeting with us today.

Kind regards,
Diana
