

A new and improved

**WESTWARD**  
Industries

A PURPOSE BUILT STREET LEGAL COMPACT UTILITY VEHICLE

## INTRODUCING

### *The* **GO•4**

#### MEET OUR NEWEST GO-4

A compact utility vehicle designed and engineered for navigating with ease in space conscious urban locations. An ideal fit for parking patrols, police departments, dense cities, university campuses, water meter reading, airports, golf courses, and many more applications. The following pages will illustrate some of our key features and benefits of the GO-4.

### *The New* **GO•4** *EV*

#### MEET THE NEW GO-4 EV – 100% ELECTRIC!

Built on the proven GO-4 platform, our new GO-4 EV is 100% Electric! A smooth and solid 96V Lithium Ion Phosphate battery powers this compact utility vehicle. Simply charge and go for less than \$1.70 per charge in most states. An ideal fit for cities with a green mandate, or for environmentally conscious establishments.

## WHY CONSIDER A GO-4?

### EASE OF MANEUVERING

At a mere 52.5 inches wide, the GO-4 occupies a very small footprint. It's compact size and 3 wheel platform is an ideal configuration for navigating tight locations, dense crowds, or simply minimizing impact on traffic. The outside turning radius is less than ten feet.

Although small in size, operator safety is never compromised its commercial grade construction maintains the highest level of protection.

## COMPACT DESIGN

### TAILORED SIZE

At 72 inches tall, the cab is extremely easy for an operator to enter and exit all day long.

A considerable benefit for tasks that require frequent exits such as; parking citations, park & landscape work, utility meter checking, security patrolling, and many other industrial applications.

### INTELLIGENT DOOR DESIGN

The G0-4 has a unique double sliding door design.

The operator may easily exit the vehicle on either side of the cab as needed. Providing a great benefit to perform required tasks without having impact on traffic or putting the operator in danger. Tasks are also performed quicker as the operator no longer needs to walk around the vehicle each time they exit. An example might be applying a parking ticket on a window.

## DESIGN FOCUS

## SAFETY

A solid 2.5 inch steel roll bar chassis protects operators in the GO-4. This type of construction is typical in race cars, it is light weight yet very tough. This is a key consideration when looking at compact vehicles, as operators have the ability to easily navigate traffic, and do so at least 40 hours a week. We underline the importance of safety when selecting your compact utility vehicle.

## DOOR MECHANICS

All manufactured materials used for the GO-4 are of high quality and built to last. Our sliding doors use components manufactured domestically in North America.

## SAFE OPERATOR DESIGN

The below illustration shows one of the GO-4 advantages. Traffic is not disturbed while the operator can easily exit on the safe side of the vehicle. Over head beacons can alert oncoming traffic of the parked GO-4

# SAFETY FIRST

## DEPENDABLE FLEET SERVICE with LOW MAINTENANCE

The reliability of the GO-4 has been known to provide upwards of 9 years or more per vehicle in fleet service. We are proud of this fact considering many of our units operate 40-80 hours per week all year round.

The GO-4 has been engineered for STOP and GO driving. Our smaller engine and well built transmission handles such driving methods well. Much larger engines may incur premature wear and tear when challenged by very frequent STOP and GO driving at slower speeds.

Our fuel efficient engine offers low maintenance cost and excellent fuel economy providing great savings over the years in service. Our parts service will soon be online, available through all authorized Westward dealers. A majority of our parts are manufactured in North America.

## PROVEN SERVICE

\*THESE ARE ONLY SOME OF THE CURRENT APPLICATIONS FOR THE GO-4

### PARCEL DELIVERY

Our van body addition has been used by customers such as NAPA aftermarket parts. This is an ideal vehicle for routes that require smaller package volumes. Our zero emissions EV is perfect for green fleets.

### PARKING ENFORCEMENT

Whether a large metropolitan city or a smaller town, the GO-4 is ideally suited for parking enforcement. In fact it was originally created with parking enforcement as a driving force behind its design.

Its narrow profile of only 52.5 inches allows it to fit in many tight locations, as well as double park next to parked cars without blocking a lane. The easy access of double sliding doors allows the operator to freely jump in and out of the vehicle from either side. The operator is not restricted to exiting on the drivers side which is typical with twin passenger vehicles. The doors can remain open while driving permitting the operator easy access while navigating. We have also outfitted units with LPR technology.

### SECURITY & LAW ENFORCEMENT

The unique look of the GO-4 lends itself well to all sorts of patrol. Malls as large as Mall of America in Minneapolis use our GO-4 for enforcing presence and security in the sprawling parking lots and adjacent streets.

NYC police department has used GO-4's for over 20 years to patrol events, protests, parades, and simply reach locations quicker in dense traffic. Also ideal for large sporting events or concerts. The GO-4 is street legal therefore driving on adjacent streets is not a problem.

## APPLICATIONS

## INDUSTRIAL EQUIPMENT

Our GO-4 flat bed has been outfitted for many various applications. To simply name a couple, street line painting and insect repellent machinery. The industrial equipment is simply fastened over the rear bed. Fuel economy is upwards of 45 MPG with the gas version, leaving large savings for agencies driving many miles on a given day. The slim design of the vehicle takes up much less space than traditional vehicles. Call us to find out which application would work for you?

## UNIVERSITIES & COLLEGE CAMPUSES

For over 20 years GO-4's and now GO-4 EV's have been ideal vehicles for Universities and College campuses. Campuses have purchased GO-4's for a broad variety of reasons; parking citations, security presence, transporting landscaping tools, moving parcels and more.

The GO-4 EV is 100% electric and fits the green mandate of many campuses. It is also street legal which provides an advantage if travel is needed on city streets.

## METER READING

Many of today's meter readers use hand-held devices allowing them to obtain a reading without going inside the property. The meters installed outside of the home can be scanned from the street while driving by.

# APPLICATIONS

## VAN BODY

Need an efficient transporter of goods? Consider our Van Body addition. Made of high quality aluminum, heavy duty steel hinges and door lock. The GO-4 Van body is ideal for delivery of small parcels, packages, envelopes, or even equipment. Due to its compact size, the GO-4 is well suited to operate in dense locations, or when fuel and operational efficiencies are a concern. Consider our GO-4 EV van Body for Zero emissions commuting. Please inquire for specific cargo loads.

## FLAT BED

As reviewed in our Applications section, the GO-4 Flat bed is an ideal fit for industrial tasks requiring a more compact, efficient vehicle that can operate all day in a stop and go environment.

The GO-4 also works well for landscaping work in parks and campuses. Our vehicle is street legal and may commute to other areas via city streets as needed. Many other vehicles for this industry may not be permitted on city streets, they may also be restricted to low speed regulations, increasing commute times.

## License Plate Recognition (LPR)

The GO-4 has previously been outfitted with LPR upon request. We work in conjunction with some of the best companies on the market. With each plate read, user-friendly in-vehicle software shows plate and vehicle images, time stamps, and more data as required.

## OTHER MODELS

## License Plate Recognition (LPR)

### GO-4 GAS ECONOMICS vs THE NATIONAL AVERAGE

## GO-4 ECONOMICS

\*information on national averages is from <http://www.fueleconomy.gov> US department of energy. 2013 models as of August 2013 Fuel Costs \*\* 15,000 annual miles at current national fuel prices, August 2013. MPG varies on driving behavior and conditions, above claims are averages. Each operator may experience different fuel economies.

MPG on the GO-4 is confirmed by EPA testing. It has also been extensively tested using various methods at our factory; depending on conditions we have experienced MPG between 37-53 MPG (average 45). We use our EPA MPG for this document.

+Range on EV's can greatly change depending on many factors such as weather, terrain, driving habits, heat or AC utilization.

This average range can vary from 50-100 miles

++Average electricity costs from March 2014, [www.eia.gov/electricity/monthly](http://www.eia.gov/electricity/monthly)

+++DOD is depth of discharge. Battery manufacturers recommend not frequently depleting a charge below 20%.

The GO-4 EV is powered by a 55 peak HP (41kW) 3 phase AC motor. 96 Volt (17.2KW) Lithium Ion Phosphate Battery pack. 110 or 220 V charging.

LED lighting is now a standard feature in the GO-4, for all exterior lighting other than the head lights. Lighting is also positioned up high on the rear cab to easily notify vehicles of frequent stopping. Additional beacons can be added.

Rear trunk with hinged and locking lid provide extra storage space.

The GO-4 can easily be outfitted with an AM/FM radio with CD player or MP3 plug in with space for two 4x4 speakers can be fitted into the ceiling cab.

A comfortable interior offers an adjustable sliding chair, tilt steering, excellent viewing conditions, and optional cup holder arm rest.

EV - Standard fully digital center dash display. Main displays are speed, AMPS, battery charge, Volts, Regeneration percentage, and odometer.

## ADDITIONAL DETAIL & OPTIONS

The GO-4 is powered by the latest and most efficient Hyundai / Kia power plant. 3 cylinder, 69 horsepower, 4 speed automatic transmission.

Optional AC is available, as well as a lateral thrust alarm which notifies the driver if taking a corner too quick and tight.

Additional nerf bar option for reducing impact from any potential dents and collisions.

<b>MOTOR</b> 96 Volt, 55 peak HP(41KW) 3 phase AC motor	<b>SUSPENSION</b> Front - Leading link suspension Polyurethane Isolation system Rear - Heavy Duty leaf spring suspension with gas shocks for maximum load control
	<b>CLIMATE CONTROL</b> Electric ceramic heater unit Air Conditioning optional
<b>BATTERY</b> 96 volt, 19.2kw Lithium Ion Battery pack	<b>STEERING</b> Adjustable tilt steering wheel with center mounted horn
<b>TRANSMISSION</b> Single speed transaxle Forward/Reverse switch on dash	<b>TIRES</b> 165/60 14" Low-rolling resistance all-season radials
<b>DIMENSIONS</b> 69.5" Overall height with cab 118" Overall length 52.5" Overall width 114" Outside turning radius 36" Inside turning radius 78.5" Wheelbase	<b>FEATURES</b> 3-wheel platform with "Tube guard" tubular steel frame White Aluminum and Plastic body panels Storage box with lockable cover Sliding metal doors with independently sliding windows Steel front and rear bumpers 3 point shoulder harness seat belt Outside rear view mirrors Electric windshield wiper with intermittent control and windshield washer Dome light, Floor mat 12V DC accessory port for phone, radio, etc. LTA (lateral thrust alarm) safety device Optional rear view back up camera
<b>BRAKING</b> Hydraulic disc brakes on all three wheels with dual master cylinder Parking - Hydraulic over mechanical Regenerative Braking	<b>SEAT</b> One passenger adjustable forwards and backwards, with adjustable back and headrest 3-point seat belts
<b>ELECTRICAL SYSTEM</b> J1772 charge inlet. 110V or 220V charging Onboard 2.5kw Charger. Charges in 5-6 hours with 220V, 10-12 hours with 110V. Lights - Two halogen headlights (optional LED's available) DOT Approved LED Stop / Tail and Turn lights DOT Approved High Visibility Stop and Turn lights Gauges - LCD Digital display. Speed, odometer, hour meter Warning and operator messages, and battery level Wiring - Pre wired for Radio and Municipal lighting options	<b>WEIGHT CAPACITY</b> Vehicle weight, 1650 lbs GVWR, 2250 lbs Rated capacity, 600 lbs including operator
<b>SPEED</b> Electronically governed at 40 or 45 mph	<b>WARRANTY</b> One year full warranty, inquire for details
<b>COLOR</b> White with all black frame and accents (standard)	
<b>RANGE</b> Up to 100 miles in ideal conditions. See below for more detailed information.	

# GO-4 EV SPECIFICATIONS

## TYPICAL RANGE SCENARIOS

The chart below provides estimates for typical ranges in a variety of driving scenarios:

CONDITION	RANGE
Manufacturer's estimated cruising range as measured by the test procedure	up to 100 miles
Careful city driving, no heat or air conditioning. Mild outside temperatures. Normal terrain	up to 100 miles
Summer driving with AC	55 - 75 miles
Winter driving (about 32oF) with heat	55 - 75 miles
Extreme terrain, with heat or AC	45 - 70 miles

Charges on 110V or 220V, uses a standard J1772 electric vehicle plug. 220V charges in 5-6 hours while 110V can take 10-12 hours. As an EV user, you can have a great influence the actual range achieved. Smooth acceleration and minimized use of accessory loads, such as the heater, will greatly increase your range between battery charges. The battery is rated at 3000 charges at an 80% discharge. Lithium batteries do not like being used well under 20%.

#### ENGINE

69 h.p., liquid cooled, 3-cylinder, overhead cam  
4-cycle, electronically fuel injected

#### TRANSMISSION

4-speed automatic  
(automotive transaxle with electronically controlled shift)

#### DIMENSIONS

69.5" Overall height with cab  
118" Overall length  
52.5" Overall width  
114" Outside turning radius  
36" Inside turning radius  
78.5" Wheelbase

#### BRAKING

Hydraulic disc brakes on all three wheels  
with dual circuit master cylinder  
Parking - Hydraulic over mechanical

#### ELECTRICAL SYSTEM

Charging – Heavy Duty 70 amp automotive alternator  
Lights – Two halogen headlights (optional LED's available)  
DOT approved LED Stop/Tail/and Turn lights  
DOT approved High Visibility Stop and Turn lights  
Starting – 12-volt starting motor.  
Interlock prevents starter from operating  
unless shift lever is in park or neutral.  
Gauges – Speedometer, fuel level, hour meter  
Indicator lights – Oil pressure warning,  
three stage water temperature light  
(blue / below running temp, red/ above running temp,  
off / normal running temp)  
Overdrive indicator, Charging system, Low fuel.  
Wiring – automotive grade wiring harness  
with abrasion resistant protective loom.  
Pre wired for Radio and municipal lighting options.

#### WARRANTY

One year full warranty. Please inquire for details

#### SUSPENSION

Front - Leading link suspension  
Polyurethane Isolation system  
Rear - Independent McPherson strut

#### CLIMATE CONTROL

Liquid core 20,000 BTU heater/defroster  
Air Conditioning optional

#### STEERING

Adjustable tilt steering wheel  
with center mounted horn

#### TIRES

165/60 14" all-season radials

#### FEATURES

3-wheel platform with "Tube guard" tubular steel frame  
Aluminum and Plastic body panels  
Storage box with lockable cover  
Sliding metal doors  
with independently sliding windows  
Steel front and rear bumpers  
3 point shoulder harness seat belt  
Outside rear view mirrors  
Electric windshield wiper with  
intermittent control and windshield washer  
Dome light, Floor mat  
LTA (lateral thrust alarm) Safety Device  
12V DC accessory port for phone, radio, etc.

#### SEAT

One passenger adjustable forwards and backwards,  
with adjustable back and headrest. 3-point seat belts.

#### FUEL TANK AND FUEL MILEAGE

9 US gallons. Up to 45 mpg. Inquire for details

#### WEIGHT CAPACITY

Vehicle weight, 1465 lbs. GVWR, 2235 lbs.  
Rated capacity, 600 lbs plus operator

#### COLOR

White with all black frame and accents (standard)

#### SPEED

Electronically governed at 40 or 45 mph.

## GO-4 SPECIFICATIONS

Specifications are subject to change without notice. These vehicles comply with the U.S. D.O.T. vehicle safety standards "motorcycles", as well as meet E.P.A. and C.A.R.B. standards.  
Graphics illustrated on the vehicle are strictly for the purpose of this brochure. Municipalities typically outfit the vehicles with proprietary graphics.
