Hi Bill,

We are currently constructing a 330 space garage and will be using Pay and Display to manage the spaces. We decided to go this route as it is our current system of regulating parking on campus. It would be easy to switch to pay by plate with little infrastructure change, then you can use LPR.

We prefer Pay and Display as it requires the enforcement officer to be on foot and walking through the entire facility, increasing their presence and enhancing safety. Whatever route you choose, pay stations are in my opinion, the way to go.

Hope this helps.

Thanks

Pat

Subject: Master Meters in Garages

Hello Fellow C-Parkers.

Our city is building an unmanned 290 space, four-level garage starting this summer. Our current system downtown is Pay and Display.

I am looking for opinions about Pay and Display versus Pay by Space in garage applications.
