The Case Against Pull-in Angle Parking: <http://www.streetsblog.org/2008/01/03/the-case-against-pull-in-angle-parking/>

In the article there is a link to a report by Nelson Nygaard called "Back-in/Head-out Angle Parking": [http://www.hampdenhappenings.org/HCC\\_WEB/Zoning\\_Pdf/RAP/San\\_Francisco.pdf](http://www.hampdenhappenings.org/HCC_WEB/Zoning_Pdf/RAP/San_Francisco.pdf)

No plates on the front really messes that up for LPR. I don't have any suggestions.

Subject: Head In Parking

Here at Lehigh we have begun to institute a "head in" only parking requirement and we are getting some static. Some complain that this is unsafe, cite studies to that effect; yet I have seen none. This is being done in anticipation of using LPR, and Pennsylvania vehicles only have rear plates. What do others do/think?
