I would love to see it as well.  
Thank you.

Subject: Re: Software question

I would love a copy as well. We currently use T2 but it's time to go back out to bid, and we want to have more functionality, including LPR integration. It would be great to review your specs in preparation for writing our new ones. And, if anyone is interested I have LPR specs that are extremely thorough....

Thanks,  
Beth Tindel

Charles,

I would love to have the copy of your RFP.

Debbie Richeson

Subject: Software question

Our IT department would like to consolidate our parking software programs into one program that will handle permits, tickets, access revenue controls, and pay stations. Currently, we use 3 different software providers. If you are using a software provider that can handle all three of these areas (or at least combines 2), please email me the name of the software and the provider. Thanks, Lori
