A proven force multiplier

Protecting the public with limited resources is always a challenge, but NDI Recognition Systems can help. Hi. I'm Christopher McKissick, Sales Director for NDI Recognition Systems (NDI-RS). Our automatic license plate recognition (ALPR) solutions can help your agency increase its effectiveness and gather more intelligence to solve crimes, without adding more officers.

A license plate reader from NDI-RS can check thousands of tags during every shift, helping your officers apprehend wanted individuals, locate stolen property, monitor persons of interest, and collect revenue from offenders. If you'd like more information about any of the products we offer, contact me at r.york@ndi-rs.net, or call me at (407) 393-7662.

Florida agency sees impressive results in first 30 days of ALPR use

The Eatonville Police Department in Central Florida has achieved very impressive results in the short time since they implemented their Rapid Deployment System (RDS), a mobile ALPR solution from NDI-RS. [More >>](#)

ALPR cameras in Lighthouse Point lead to arrest of burglary suspect

ALPR cameras from NDI-RS alerted Lighthouse Point police officers to a stolen vehicle on March 26, leading to the arrest of a burglary suspect. In an unusual twist, the suspect, seeking a ride, flagged down an unmarked police car that was participating in the search for him. [More >>](#)
