Susan shared with me the numbers on the outstanding paylot fees. She has 25 outstanding for a total of \$96. 20 of the 25 are students and they are identified, their cards are locked out from re-entering the paylots. The remaining 5 are not identified. I'm not sure how we want to handle these outstanding amounts. I wouldn't recommend expending a great deal of time though on \$96. Thanks.

Pat

Here is the quote thus far. This \$34,420 is to upgrade our entervo system so we that are able to add

value to our All Campus/Wolf One cards and decrement that value as its used. He did not include Partners and Poulton paylots. Based on the numbers he provided, I'd expect an additional \$8,172.00 for the Partners and Poulton paylots. I'll be in touch with George to confirm these numbers when he returns next week.

As you'll see below, we will not be able to use 2 different credit cards to pay because that requires LPR.

Also - Just as an FYI, we've had 27 people who haven't paid since we changed our process back on April 7.

Ronnie,

Attached please find the quote for the system upgrade, I will be out of the office until May 27th and will check in with you when I return.

Hi George,

We have 5 lots, 8 entries, 8 exits.

Dan Allen: 2 entries, 2 exits

Coliseum: 3 entries, 3 exits

Partners Upper: 1 entry, 1 exit

Partners Lower: 1 entry, 1 exit

Poulton: 1 entry, 1 exit

Too bad about the LPR being needed for different cards for payment.

Thanks,

Ronnie

Hi Ronnie

I am working on your quote for the upgrade, can you confirm the number of lots and lane devices on the system?

Also, I have an answer regarding the use of a different credit card at exit that was used to enter, this is only possible when using license plate recognition in the lanes.

George,

I was able to download it.

Thanks,

Ronnie

Ronnie,

Let me know if are able to download this document, it probably describes 98% of the system functionality and capabilities.

George
