Introducing Autoscope Private Parking LPR Solution

Improve the user parking
experience with
automated LPR
solutions

[See How](#)

Image Sensing Systems' Private Parking LPR Solution is a flexible, fully automated solution that simplifies operations and improves the user parking experience.

This solution consists of one or more LPR camras supported by the Autoscope Parking back-end software and provides:

- Log vehicles with multiple images
 - Alert staff to vehicles of interest
 - Provide car park access control
 - Control unauthorized parking
 - Increase gatehouse efficiency
 - Control traffic lights and gates
 - Output messages on LED signs
- [and much more!](#)

For more information about our above ground-technology and how our products can give you the clarity and confidence to make precision decisions for your parking facility visit us at **IPI booth #101** or at imagesensing.com.
