Subject: Re: housing

Hanna, thank you for reaching out with these concerns.

The [CDC guidelines for unsheltered homelessness](#) are in place for very important reasons. I have expressed on record my request to pause the clock on notices/evictions. At this time, the City of Asheville is working closely with partners on temporary solutions, including use of hotel rooms, while we work on longer-range plans.

Next steps will be discussed during our Council checkins this Thursday, which are not public meetings. I hope you will stay engaged in this conversation.

With Shared Concern,
Kim

Hi, councilmembers,

After a violent raid at Aston park, I'm writing to ask you to end evictions of the camps where houseless community members are staying, & especially to end police involvement. Please consider immediate alternatives to solving the problems called in that have spurred this change in previous pandemic policy sanctioning camps on city property (providing & maintaining portapotties at camp sites, providing hand washing stations, etc.) & more long term prioritize efforts to make less people houseless, & practical stop - gap measures for safety for people experiencing homelessness right now.
