Debra, thank you for the update.

I am among the neighbors who are profoundly brokenhearted that we are disrupting camps without a compassionate solution during the pandemic. I will continue working with partners to seek solutions, and am glad to share what I learn.

With Concern,
Kim

Wanted to update you all concerning this issue. Cathy will be back in the office Monday and has scheduled a meeting with City staff and key partners to continue coordinating this work.

Hope you all have a great weekend.

Debra

Per our earlier conversations the following tasks were completed this afternoon:

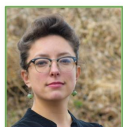

- 7 day notices to vacate were left with all of the campers at Aston Park. This was completed with the help of Hillary Jones with Homeward Bound. She offered outreach services through Homeward Bound to each camper.

- 7 day notices were also left with the campers at MLK park. Hillary had already visited them earlier in the day so the notices were left solely by APD.

- Cherry Street Follow Up:

None of the campers/tents had returned to the Cherry Street location. All of the vehicles were gone except one remaining RV. Mr. Fortuna was changing a tire on the only remaining RV and assured me that it would be moved in the hour.
