Erin, thank you for reaching out with these concerns. The [CDC guidelines for unsheltered homelessness](#) are in place for important reasons.

I have expressed on record my request to pause the clock on notices/evictions. At this time, the City of Asheville is working closely with partners on temporary solutions, including use of hotel rooms, while we work on longer-range plans.

Next steps will be discussed during our Council checkins this Thursday, which are not public meetings. I hope you will stay engaged in this conversation.

With Shared Concern,  
Kim

Good morning,

I'm writing to state my opposition to the city's plan to remove unhoused people's camps at Riverbend Park, Hill Street, Aston Park, and Martin Luther King Park.

Clearing these camps will only further destabilize vulnerable people who lack access to shelter. The issue of homelessness requires investment in services and affordable housing instead of further traumatizing people who live in tent communities by destroying what little sense of security and possessions they have. Please consider a more compassionate response to our unhoused neighbors.

Thank you,
