So [REDACTED] 319 n [REDACTED] 303 are taking the bags if clothes/yeah from 316 n throwing it away. Some clothes they are keeping. We wanted to know if you gave them permission to do this?? It should we do them? It was brought up that maybe they don't need to be adding to their rooms

Are they allowed in the room to "clean" n pick thru? Asking you because I'm not getting an answer from them in who said they could do it

I haven't talked to them - how did they get access to that room?

Sorry I couldn't answer, am on a call but can text

Idk but should they be allowed to be in there or not

No I don't think so

Okay we're asking mrs Patel

But Mr P just texted that its not cleaned out so sounds like we do need to do that!

Mr Patel said if they really to take so it than they can thank you

316

302 is open to the salvation army of he could get in. 318 is not interested in those options. He said his caseworker will just bring him to a camp

213 is not willing to go to either the salvation army or the mission

We finished appt it went well. She said would send pishah legal, & myself a copy of the assessment results

So i actually meant in 308 not 303 () for the room w Quinton

have me his ph # so I could call him when you going out if he can go to the Salvation Amy but im sending it to you because i don't think I'd be the one notifying him

All great, thank you! I'll check on Salvation Army tomorrow and follow up with him. Is that stuff in that one photo (bedroll and bike and maybe another bag) still in 316? I appreciate all your help today!

Hi this is 💜 Hope, I'm here w [REDACTED] 102 he's wondering but the houseless program that helps ppl that have been homeless awhile n or vets he was wondering if he could have your # but i don't want to unless you say so (& to make sure it's your work #)

Hi to both of you!! He's not a vet though right? He's already enrolled in Homeward Bound's housing program and I don't think it'll be a super long wait for him actually. 🙌😬 Can you see if he's going to AHOPE and checking in? If not that's the best action step for him - checking in with Nora at AHOPE
