

## Weekly Update

### Training and meetings

February 8<sup>th</sup>, 2023, at CATS Center, Troutman, NC, some of the most common mistakes boards can make and how to work in unison to accomplish goals. Dean Shatley and Jim Watson/Dr. Hart will cover in-depth your role and where you are in the process of overseeing education. The superintendent as CEO versus the board with general oversight and how to work as a team to prevent unnecessary lawsuits, OCR claims, and EEOC claims.

### Press Conference

The press conference at Oakwood with law enforcement seemed to go well, and we have had numerous positives. We did have another incident at a bus stop on Wilson Lee and are suspending numerous students. The SPD has charged several, including one student, with assault using a deadly weapon. I will review the student's long-term recommendations to see if I will recommend expulsion.

### State Superintendent Visit

February 7, 2023, State superintendent Truitt will visit ISS. We start at CATS at 1:00

Personnel Information

### Duke Energy Meeting

Tim and I met with Duke Energy today to get some idea of what they are willing to do. They will finance 35 million over 20 years and are working on the numbers now. We hope to have some idea or ball park soon.

### Construction Project Updates Q & A –

Scott - [Celebration:](#) -

**SMS/Oakwood Renovations – Submitting the NOT (notice of termination) Paperwork today. To get this one off the books**

**North High Canopy – Will reseed in the spring**

**Weathers Creek High School (New High School) - Pencils are down, Working on QC this month, Color for the school will be the base color TEAL and BLACK we have elected to add a slate gray to this pallet to help break up the color pattern, discussing mascot for the school now with others.**

**Address for the new high school is as it shows for right now, 246 Overcash Rd, Troutman NC,**

**28166 this may change once the building is complete.**

LNE Gym/classroom addition – Project is on the books. I have started discussions about the retention

pond with David Reese.

SHS CTE – Barbering was sent to advertising on Thursday of last week.. Looking to get bids back mid

February. Waiting on state and county review comments.

SHS Chair lift sound booth access - Project complete.

SIHS Canopy – Project complete, LaFave is supposed to start a small waterproofing project for us on the

Auditorium next week.

Facilities & Planning - Working on ADR Consolidation with Tim and Adams & Associates

Harmony classroom wing exterior enclosure- Met with Randy from Pinnacle last Wednesday to get scope

of work. Waiting on a design proposal so we can start the project

Statesville High Field House- Setting up a date so we can meet to discuss location in the stadium to put

this building. We have many hurdles we have to address on this project before we can get started.
