

Google Certified Educator Course

Description: With the support of Google Certified Trainers, teachers will explore the benefits of educational technologies, and learn the skills necessary to successfully reach all students using Google Suites. Educators who complete and fully engage with the Google Certified Educator Course will be prepared for and eligible to take the Google Certified Educator Level 1 examination. Fees for the initial exam will be covered.

Course Objectives

Teachers will:

- Analyze the applications and benefits of technology in the classroom
- Leverage Google Education tools to optimize instructional outcomes and planning efficiency
- Create digital pathways for communication, relationship-building, and collaboration with students and families

Series Format

The Google Certified Educator Course consists of ten self-paced content modules, including independent application tasks, reading and discussion, and assessment, as well as live support with Google Certified Trainers. Each self-paced module includes approximately 3 hours of coursework.

Course Scope & Sequence:

Module 1 | How Does Technology Impact the Classroom?

- *Self-paced application task, module review video, reading & discussion, and assessment*
